About

B.Tech student in Artificial Intelligence & Machine Learning who builds web applications with React and Java. Enjoys clean code, simple interfaces, and learning by building small, working projects.

Skills

Frontend: HTML5, CSS3, JavaScript, React
Programming: Java, Python
Database: MySQL
Tools: Git, GitHub, VS Code, Figma

Experience

B.Tech Student, AI & ML - MS Ramaiah University of Applied Sciences
2025 - Present

- Coursework in software development fundamentals, discrete mathematics, and programming.
- Applying classroom concepts in hands-on mini projects and lab work.
- Using Git and GitHub to manage code and collaborate with classmates.

Web Developer - Self-Directed Projects
Ongoing

- Building responsive websites and apps with HTML, CSS, JavaScript and React.
- Practising Java and Python through small programs and project work.
- Publishing code on GitHub (VINAY-RY4) and learning from each iteration.

Projects

Personal Portfolio Website (React, Vite, CSS3)
Responsive portfolio with dark mode, animated sections and a validated contact form.

Weather Dashboard (JavaScript, HTML5, REST API)
Shows current conditions and a short forecast for any city using a public weather API.

Library Management System (Java, OOP, MySQL)
Console application to add, search, issue and return books, built to practise object-oriented design.

Education

B.Tech in Artificial Intelligence & Machine Learning - MS Ramaiah University of Applied Sciences (2025 - Present)

Pre-University Course (PUC) - Creative PU College (2023 - 2025)
